(a) Two inputs tending to diag(1,0)
value predicted from the limits: 1
t = 0: c = 1
t = 3/2: c = 4/5
limit of the mean, c(t)
coupling parameter t

(b) Same input symbol, no output limit
normalised trace of the mean
matrix size N
even N: tends to 1/2
odd N: tends to 2/5
